Germany

To: Valued Customer

DEUTECS GmbH

We are Your:

- **Trading** Partner
- **Entrepreneur** with Connections
- **Consulting** Specialist
- **Servicing** Team A...Z

Consulting

Cementing, Stimulation, CT, Sand Control, Well-Work and Drilling Fluids at any stage of the well life.

R & D - we facilitate your product and operation development.

Training - we provide a high-level training and keep track on the personnel knowledge, helping managers to have their team up-to-date.

Commercial services - we are a part of your team to work on the tenders and quotations. Controlling of invoices, inventory, performed work.

Engineering – we are bringing to you our long years' experience throughout Oil and Gas, Geothermal, Storage, Disposal wells and HDD.

On-site support - we are at your field site, when the cost of the failure is much higher than the cost to have one more specialist at your side.

Trading

Cementing, Stimulation and Well Fluid additives for any environment, either it is off- or onshore, desert or cold climate, deep or shallow wells.

We have them all and now you can have it too!

Furthermore, we can provide you with spare parts and machinery for the pumping equipment, rental of treating iron and equipment, downhole tools and casing hardware.

Vast experience with logistics and operations.

With an experience through major international and small regional players, we know this business down to its roots.
